Biblical Prophecy and the Antichrist: The New World Order and King Charles

In 1987, six months before graduating from the US Air Force Academy, Timothy Cohen had a profound spiritual experience directing him to study biblical scripture and prophesy, and resigning from his future career. A decade later, in 1998, Cohen authored his first book, *The Antichrist and a Cup of Tea* in which he made the remarkable claim that biblical prophesy and a series of Monarchical events in England pointed to Prince Charles being groomed to play a critical role in the formation of a New World Order.

According to Cohen, ever since Charles investiture as the Prince of Wales in 1969, he has been groomed to be the savior of the world in several New World Order-related events staged by global organizations and secret societies. Cohen describes the unique heraldry designed for Prince Charles that symbolically represents the number 666, and how this number pointed to Charles being/becoming the future Antichrist, who is depicted to be the forerunner to the prophesied second coming of Jesus the Christ.

In his first Exopolitics Today interview, Cohen describes his remarkable claims and how these relate to the cover-up of extraterrestrial life and ancient civilizations through Prince/King Charles historical leadership position over secret societies, including Freemasons, who play a dominant role in determining what secrets are to be disclosed to the world.

Also discussed are several important synchronicities with the newly appointed King Charles (September 8, 2022) and his coronation on May 6, 2023, that support Cohen's claims. One of these synchronicities is that the time between the burial of Queen Elizabeth II on September 19, 2022, and Charles's coronation was exactly 6 months, 6 weeks, and 6 days. The 666 symbolism, according to Cohen, is how the Cabal/Illuminati openly signal their identity and agenda in cryptic ways, thereby complying with cosmic law.

Another synchronicity was King Charles unveiling of his official portrait that several analysts pointed out contained symbolic representations of the demon Baphomet performing a blood sacrifice.

Yet another synchronicity includes JP, a US Army Insider, claiming that in October 2022, the seeds from a Tree of Life and unknown plants gifted to humanity from an underground Ant Civilization in Florida were immediately taken to England under the orders of King Charles. This strange incident confirms that the British Monarch has extraordinary power in directing covert operations conducted by US special forces, as claimed by Cohen.

Also, a team of remote viewers led by Dick Allgire found that a second coronation ceremony involved the real transfer of occult power to Charles,

which involved blood sacrifice. Ritual blood sacrifices have been claimed to be a key component in invoking dark spirits, ET entities, and demonic possession.

Furthermore, an Australian contactee, George Kavassilas, claimed that he learned in 2024 that a very powerful dark demonic force had taken over the body of King Charles, and this 'spirit possession' had opened the door to the intervention of highly evolved extraterrestrials called the Universal Space Council in human affairs.

Finally, Cohen responds to the attempted assassination and re-election of President Donald Trump, and how this relates to King Charles, the Antichrist, and Biblical Prophecy.

DR. SALLA: In 1987, while completing his final year as a US Air Force Academy cadet, Timothy Cohen resigned to pursue a higher calling after a profound spiritual experience. Today, he is an internationally recognized Christian author, speaker and teacher. He has written prophetic and theological works that include *The Antichrist and a Cup of Tea*. He was divinely guided to extensively researched NASA photograph

archives where he has found suppressed evidence of life on Mars.

Well, welcome Timothy to Exo Politics Today.

TIMOTHY: Glad to be with you Michael. We've been looking forward to this.

DR. SALLA: Yes, well, we've known each other for I think a decade now and we've communicated in the past and I've always been intrigued by your life story and how you came to be doing the things that you're doing. Let's start at the beginning for people that don't know you at all and you joined the US Air Force as a cadet and in 1987 while you were in the final year, you decided to resign. So why don't you explain what happened?

TIMOTHY: Well, I entered the Academy as a secular Jew, an unbelieving Jew and non-Christian. I called myself an atheist, really I was agnostic and I was in the computer science before I entered the Academy, but a computer science classmate of mine which was the degree I pursued there invited me to go to a Bible study and I said, what are you studying? And he said, Bible prophecy and I said, "Oh, I didn't know there was prophecy in the Bible." So I was strictly curious about it because of my own dabbling in the occult and New Age

spirituality prior to that.

So I went and ultimately after a few weekends of just hearing what they were sharing the pastor was pointing out that there is justice for all the evil in the world in the end per God and it was a miraculous thing. I just suddenly believed and there's no rational reason for it. I can give you a ton of rational reasons now for why I believe what I do, but at the time that I received the Lord in the Word, I believed it was really it was miraculous and I felt the Holy Spirit enter me that day when I asked the pastor to pray with me to receive Jesus Yeshua as my Savior.

DR. SALLA: I mean, this is a pretty profound decision that you made. I mean, I know it's not easy to get into the USA Force Academy and once you're in, you're destined to become an officer and all of a sudden you have this profound spiritual experience and you choose to resign. What was it like just six months before you were going to graduate?

TIMOTHY: Yes, I resigned about six months before I was going to graduate and I'd been a believer for about six months to that point when I decided to resign. So it was actually November of 1986 that I became a Christian in November of 1987 that I left the Academy. And in between, it was in that final six months that God showed me some things such as the identity of the Antichrist. And I decided, you know what, if he's alive now, he's walking the world now, he's an adult man now and he's popular in the world now, we might not have that long. And I thought, well, I probably need to document this and get it out there because I already felt that God was calling me to write a book at least one that I didn't know what the title or topic was going to be precisely yet, not immediately. And then obviously we've had a lot of years since then for things to get set up in the world, but it took a long time to get it all out there.

DR. SALLA: So in 1987, that was when you were being guided to learn about the Antichrist, was that it? I mean, that there was some kind of mission that you had to what expose the Antichrist? Was that what kind of happened?

TIMOTHY: Not really, it just began with a voracious appetite to read scripture after I prayed to receive the Lord. And so I was reading through scripture and I got through the New Testament a couple of times I got through a portion of the Old Testament like the Torah, the five books of Moses, the first five books of the Old Testament. And as I was reading the book of Revelation in the New Testament, I think probably the third time, second or third time, I think it was the third time, but I asked God to show me who and what was being spoken of in Revelation 13 because it had this strange chimeric imagery of these two beasts.

And the first beast was particularly curious. It'd be like a bare body like leopard mouth like a lion, to whom a fiery red dragon gives his power through an array of authority and thought, okay, that doesn't exist in nature. But I was convinced at that point that scripture was literal and that was true.

And so I said, okay, Lord, what is this? Who and what is this talking about? This is some creature that's going to be bioengineered or what is this? And within a month of doing that I had in my possession, in my hands, the actual imagery that's described there and found how to actually exist. It belongs to Prince of Roman lineage. And I had the name calculation also, whose name entitled by which he was known global, it calculates the 666.

And so I thought, okay, here it is in my hands, I'm still a cadet. And I'm thinking hardly anyone in the world knows about this. This needs to be made known to the church and the world because we don't have that long. That's what I was thinking.

DR. SALLA: Okay, so I mean, you went on then to write, I mean, obviously, you're researching doing a lot of research, as you said, diving into the into biblical scripture and doing your due diligence. And you came up with enough information to write a book about *The Antichrist and a Cup of Tea*. So when did you write that book? And why don't you walk us through what's in that book and you're thinking?

TIMOTHY: Sure, let me just put up the covers so people can see it.

DR. SALLA: Yep. Tell me.

TIMOTHY: We have it up in now. Okay. Yes, so I had the core information and that's all I had. I left the academy, I had this image that

you see on the front of the book, which is that knees to feet like a bear, body like a leopard, mouth like a lion on what looks like the left hand side. People look at it, not the normal lion or lion leopard, in this case for England, that's the heroic achievement of Charles as Prince of Wales, but he still is forever the 21st Prince of Wales. So even though there's a new Prince of Wales now, his son, William, who is the 22nd Charles remains the 21st.

And so this heroic achievement, this coat of arms, which he was granted as Prince of Wales in July, 1969, is unique to him on her international law. And so it's got that imagery with a red dragon and the knees to feet like a bear, body like a leopard, mouth like a lion on it, instead of the normal lion or lion leopard for England, like what his mother had, she had a normal lion on hers. And then I'll just show quickly, let me go to a different set of images here, the name calculation.

So people can see that, this other thing that I had in my possession when I was still at the academy, right here, this is the first page out of the first edition of the Antichristic cup, he's showing the name calculation. And so it shows that both in Hebrew, now seek Charles of Wales, which is that title Charles Prince of Wales or Prince Charles Wales in Hebrew, and then Prince Charles of Wales, both languages, the biblical numbering system, which is identified in the Greek text of Revelation 13 verse 18.

So later in that same chapter that presents that imagery for this beast, it identifies the system for the calculation in the underlying Greek text in which the English is translated. And on that system, which is sequential, it's not phonetic. So you can apply it to multiple languages sequentially. The title Charles Prince of Wales is 666 in both Hebrew and English. And the original system was in Hebrew, and it was transferred sequentially to Greek historically, and then we see it in Hebrew and English here that that title is 666. Mathematically, that's not possible.

Statistically, the odds are so against the universe really worth billions of years old, this would never ever happen. And not with the real name where you're not tampering with the name or the system or that kind of thing. And so I had the name calculation, and then the imagery. And that was enough. That's all you need biblically to show that somebody is the Antichrist, because statistically it's impossible.

But as it turns out, there was a whole lot more to it that I learned as I researched the topic of Charles as Prince of Wales in the British Monarchy. And things that happened even after this book came out. So for example, there's this statue that came out years after the first edition of *The Antichrist and a Cup of Tea*, about Charles, that effectively portrays him as Zeus or Jupiter, the ancient Greek and

Roman pantheons is the chief god.

This is how Zeus and Jupiter was portrayed historically by the pagans. And this one has Charles face, and it was presented to him in the early 2000s. The BBC took this photograph of British Broadcasting Corporation, and there's a full-size version of this. This is the miniature one. There's one that's the same size as the angelic statues, the cherubim statues that went on either side of the Ark of the Covenant in Israel's ancient temple.

So there's a full-size version of this that's the same height, ready-made to go into a future temple. So this came out years after the book, the first edition, and there's been a lot more since then. We can go into that if you want, but not to belabor it too much. The bottom line is that for the first time in history, there's a human being alive who has the imagery and the rank calculation. And as it turns out, he is over everything globally. He's the top elitist. He leads us, I should say, among globalists in the world today.

DR. SALLA: Well, I know there's been a lot of people that have speculated about who is the Antichrist that whether they've used the Book of Revelations or whether they've used Nostradamus. I know there's one particular author, Jim Hogue, and he predicted he made prophecies about the Antichrist being Obama or being Osama bin Laden or another predicted that it was Prince Salman of Saudi Arabia, that the current crown prince. And all of those predictions are interesting.

But you from the beginning were saying that it was Prince Charles. And I was kind of like sitting on the fence. I was just kind of looking at that, thinking, okay, Book of Revelations and a lot of people making predictions. But there were some intriguing things that that happened that made me kind of do a double take on your material. And I think you were the one that I first heard saying that there was this 666 connection between the inauguration of King Charles on May 6, 2023 and the burial of his mother, Queen Elizabeth, on September 8, 2022. So you want to tell us about how you came up with that 666 connection?

TIMOTHY: Yes, if I remember right, it was six months, six weeks and six days after his mother's funeral. If I remember correctly that his crowning as King transpired last year. So that was a bit unusual. But as it turns out, 666 is all over the place in connection with Charles, even here on his heroic achievement, for example, he's got something called the badge of the Black Prince right here in the center that all circle with these three ostrich feathers surrounded by a cornet and then I could dean or I kind of I'm not sure quite how to pronounce that in German, but it means I serve.

These three feathers are in the form of three Hebrew letters that are

the letter Bob. And so when I was showing that name calculation here, I'll enlarge this so you can see it. You see this letter Bob in Hebrew? The value is six on the numbering system. So they do things like that where they hide it with regard to Charles and he has worn this particular badge. It's known as the badge of the Black Prince on a gold signet ring on his finger since before he married Diana, even during his coronation, he was wearing it and it's portraying him as the Prince of Darkness. It's very interesting.

DR. SALLA: I know you showed us that image of him with the wings as kind of angel, but you can interpret that as being that kind of fallen angel. And there was also that picture or that painting that was made of him that kind of like people saw Baphomet. I mean that one, do you have an image of that where the people could see the official portrait of King Charles where there was, if you did a mirror image of it, it showed Baphomet. So I thought that was very interesting. So yes, what do you know about that particular image?

TIMOTHY: Yes, I can show you one actually. Yes, just hear you. He can easily pull these up on YouTube. But people were juxtaposing this, which is mirrored and inverted image of his portrait his first official portrait next to this Baphomet statue. So here's just one example that somebody's posted online. Let me see if I can just open up the image so people can see it.

Let's just open up the image by itself. Okay, so they've inverted it like he's falling to hell and he looks like he's got rotting like he's a rotting human corpse basically, but he's alive. And what they've noted here is this Baphomet, which is an androgynous statue, since it's got female breast, male organs other than that, but you can see that right here, the female breast, you've got the thing on the top of the head here, the two horns that go both directions. You can look at it different ways, but people looked at this and they said what in the center here, when you mirror it and you flip it, it looks just like the Baphomet statue.

And a lot of people looked at this and they saw a bunch of other demonic heads and faces in it. And then there's actually a Monarch butterfly over his shoulder in the normal image not flipped or premiered that represents death and resurrection or perhaps chimeric hybrids for other reasons I can go into if you want, but so they were looking at this and they were saying, what does this mean? Is he like the ruler of hell? It looks like he's surrounded by blood red flames, right? Looks like rotting corpse and he approved this. This is his first official portrait as Monarch. He even unveiled it personally to the world.

So if we, you can see it right here he, he actually pulled down the veil over the thing and unveiled it. And this is the artist who created the portrait itself. Here's the Monarch butterfly over the shoulder. So if I just open this image up, right there is the Monarch butterfly, over the

shoulder, if I can circle it next between their heads, basically between the artist's head and the portrait's head. See if I can get it so you can see it right there in the center here. Right. I mean, and so everybody's saying, what does this mean about Charles? And basically I'm saying it, he's exposing himself for who he is. And one of the interesting things about this is and I'll go to scripture here just briefly. Well, before you go on there,

DR. SALLA: I mean, that's an important point that he that he's revealing himself. This seems to be a pattern for the Illuminati, the cabal, the whatever you want to call them, that they reveal the truth in a cryptic way before they actually set out to dominate or deceive. So why is that?

TIMOTHY: I think they view it as a legalism, a legal type thing. They view it as a legal aspect of the universe. They can't legally do something unless they've been honest in some way with the public about it first. So even when you look at the evil agendas that the elitists have, they will always ultimately talk about those things while they're implementing them, but they'll do it in a way that the public is still deceived.

DR. SALLA: Right. So that they reveal the truth in a cryptic way. And they use that as a kind of justification for them deceiving or controlling and manipulating humanity.

TIMOTHY: Yes, like an example might be Bill Gates at a TED talk in 2015, where he was saying if we do a really good job, we might reduce the human population by 10 to 15%, and then what is he very tied in with the mRNA jabs later? Right, in the COVID era. So yes, so those kinds of things are pretty typical. And this portrait here, you notice, I point out the face, the flash, it looks like rotting human flesh, right? That's actually more significant than it might seem on the surface. So this unicorn right here, there are four horsemen that people talk about in relation to the apocalypse, the book of Revelation. The fourth one is typically translated as pale or pale gray or gray or that kind of thing. But the Greek word is *chloros*. It means pale green gray. And it's actually the exact coloration of rotting human flesh. And on this, her all the achievement because the cover of the book is printed in CMYK colors cyan, magenta, yellow and key. It's got a reduced color spectrum versus RGB, like what you might be able to see on your computer monitor.

But if this is printed in RGB, that unicorn is suddenly pale green gray. It's got a very obvious grayish greenish hue to it. So the unicorn also looks like rotting human flesh, when the full color spectrum is visible on the cover of the book, it looks like white or gray white because there's not enough width in that color spectrum in the printing to actually show that hue.

But all that is to say is that Charles is the fourth horseman of the apocalypse. And the name of that horseman, and this is Revelation chapter six, verses seven to eight, the name of that horseman is death. So if I just show that for a moment, because it ties in with that portrait that we're just looking at right there. So the only individual called death in the Bible is Lucifer Satan, the adversary of God, the fallen angel who's above the rest of the fallen angels.

And yet the rider of this horse is named Death. And the Antichrist is called the son of perdition and scripture. There's one other individual who has that title in the Bible. And that's Judas Iscariot who betrayed Christ before Christ is crucified. And Judas was possessed by the Devil right before he became the son of perdition and went to portray Christ. What it's telling us here in scriptures that the Antichrist is fake Messiah is going to be likewise possessed by the Devil so that he and death become one and the same.

And that he's associated with this color of rotting human flesh because the horse he's riding. This is actually supposed to be pale green gray right here for the Greek text. And that word for horse, by the way, in the in the Greek can be a unicorn or regular horse or Pegasus. All three are composed in that Greek word.

But coming back to this, I was talking about we talked a little bit here about the name calculation, right? I showed that. But earlier in this chapter when it's talking about the beast his name or title is supposed to be calculated right here. If we go to the beginning of the chapter, just Revelation 13 in general, there are two beasts. The first is the Antichrist who we're talking about. The second one is the false prophet who work in tandem with him under the Devil, under the actual individual named death. And the imagery that is on Charles Herrall's achievement says the beast which I saw resembled a leopard, his feet were like those of a bear and mouth like that of a lion.

Sorry, let me get my highlighting a little bit better here. And then right below that, it says the dragon gave him his power throne and great authority. And in the prior chapter of Revelation 12, it identifies that dragon further as having the appearance of a fiery red dragon and says that dragon is one and the same as the serpent who deceived Eve in the Garden of Eden, the Devil himself.

So it explicitly tells us that in Revelation 12. So then I'll just point out one more thing here. This is a corporate beast in heraldry. The overall Herrall's achievement is. And so it has its own head right here. It's an occult form of artwork where the Herrallist views it as a living entity unto itself in a spiritual sense. And so it has its own head. Well, around the necks of each of these beasts is this thing that looks like three prongs ripped up by the roots are inverted right here.

So it's around the neck of the lion leopard bear beast, around the neck

of the unicorn, which by the way has human eyes. And so the Antichrist is described as a little horn of the eyes of a man in Daniel chapter seven, which in context historically was a unicorn having human eyes. Charles, when he visits the United States, his secret service code word is unicorn. And he personally refers to this as my little horn on his heraldic achievement. That's what he calls it. But it's got this label around its neck. It's called the label of the eldest son. So it represents him specifically. It has it here. It has it here.

This is another version of this beast. And then the most curious thing of all is it's around the neck of the red dragon. This is the same red dragon that's spoken of in Revelation 12 in the Bible. It actually goes back to the standards of the ancient Roman cohorts that occupied ancient Judea, ancient Judea. So the apostle John, who penned the book of Revelation would have actually seen this symbol on their standards or flags in the first century, A.D. So it's telling us though that this dragon is the same individual as Charles that they're one and the same. It's implying in other words that the Devil is going to possess him and they're going to be the same being in a manner of speaking blended. So yes.

So by black magicians or the cabal or whatever you want to call them at that time, as predictive programming so that someday in the future that they could use that scripture to kind of like manipulate humanity into believing in an antiChrist.

TIMOTHY: Wow. So the book of Revelation, a large portion of it actually is quotes from the Old Testament, or similar quotes. So most of it derives in fact from the Old Testament with some additions like this particular imagery beasts of you like a bear body like a left from the line and then it's put in a sequence. But it's also unveiled in the form of seals that are open. So there's seven seals and seven trumpets under the seven seals and seven bowls of wrath under the seventh trumpet, a sequence of events that are spread out across seven years called the tribulation week and the latter half three and a half years preceding Christ returned an Armageddon.

So first of all, there are about 20. Well, this is as of decades ago, more than two decades ago, almost 30 years ago, there were about 25,000 known fragments of the New Testament over 5000 complete New Testament manuscripts, including the book of Revelation. That's exponentially more than for any other ancient piece of literature in existence, secular or religious in terms of original manuscripts.

So we can compare those and know that they haven't been corrupted. So that's my first point, because we have so much textual evidence that continues to exist. And they find more manuscripts they found more since then. That's what we had decades ago that we knew about within Christendom. You could compare that to Homer's Iliad or any of

these other ancient books and you might find dozens of copies to a little over 100 copies at the most, not tens of thousands of fragments and 5,000 complete copies of this kind of thing. So we know that the text has been conveyed accurately through history on that basis. In terms of Black magicians or this kind of thing, they wouldn't have read nor believed the Old Testament. And why would they try to manipulate generations, now thousands of years later, versus their own period in time, their own day? And so either John was a liar and somebody made all this up and somehow managed to be very clever and caused some of these things to happen in the future, right? Or that's not actually possible. So I think there are things in here, just what I've shared already that aren't possible to, to, to connive, let me put it that way. If we wanted to come up with a real name and title that's of a biblical format like Christ Jesus of Nazareth or Apostle Paul of Tarsus or this kind of thing, in this case, Charles Prince of Wales or Prince Charles of Wales.

If we wanted to come up with a real name or title, like that, and try to shoehorn it into a calculation of 666 on the biblical memory system, that would be by itself a Herculean task. I would say it's pretty much an impossible task in two languages, but then when we look at just the imagery alone, this was not created by the British Monarch, it was created by the College of Heraldry in London, headed by the Garter Herald King, his most powerful Herald in the world.

And there are actually international laws, as well as rules, that apply to heraldry in the production of these royal coats of arms. And by these rules, they had to take some of the symbols from each of the parents' role, the achievements, if they each had their own, in this case Queen Elizabeth II and then Prince Philip, both now deceased, and combine them for the son, in this case, to whom the achievement was being granted, and then add unique symbols for him, specifically to it on top of that, and come up with something that's unique to him forever, under international law, kind of like a genetic code of a human being when you make a human being when the man and the woman comes together, you get a genetic code that's unique.

So it's a bit like that. So it would be very hard to do this on purpose, let alone through predictive programming for 1900 years later. And then some of this is described in the Hebrew text in the Old Testament even earlier in history. So this is going back 2500 years roughly to the time of when the book of Daniel was written, this 1900 years right here. But as it turns out, and I show this in the book, almost every single symbol that's on this heraldic achievement is found somewhere between the Old and New Testament, mostly the Old Testament. And so it'd be very hard to just fake it.

But there are so many things that are hidden in here that even

Christians wouldn't expect. And I'll just give one quick example. So like, there are 10 horns in a head and three are plucked up by the roots in Daniel chapter seven and a little horn of the Azaman comes up among them. The Hebrew text and the Greek text, both the word for horn can be conical like we see on the unicorn here. It can be shaped a bit like an elephant's tusk like we see these seven bars across the home.

And it can be shaped like a chemistry violin, we see these three that are inverted on each of these labels. Well, this is the overall head of a corporate heraldic achievement right here in the center. And there are seven plus these three that's 10, but three are plucked up by the roots. And the little horn of the Azaman, this unicorn human eyes comes up among them. That's the imagery described in Daniel seven. But if somebody sat down and tried to intentionally put all that imagery together with the rest of what's in the New Testament like that beast over there in the red dragon and so forth. On something that actually makes sense per international laws and rules that have been used for all kinds of coats of arms, not just this one on heraldic achievements for both individuals and companies and nations. And try to finagle that and make it work for somebody who also they had to come up with a name 666, a real name, at least one language for the same person. I think that would be an impossible task.

DR. SALLA: On a proposed, okay, let's look at this in terms of like the Book of Revelations that was written somewhere in the first or second century AD. And as you said, it's compiled from a lot of kind of like elements of the Old Testament. Now, we know of the existence of the fallen angels. We know that they were very intelligent beings. We know that they were the ones that were behind the kind of like the apprehension of Jesus and his crucifixion and the planning of a church that would be suppressing a lot of followers of Jesus and kind of like steer those that wanted to practice what Jesus taught, which was I mean the great commandments love thy brother as thyself and love the God, Lord thy God with all thy heart and all of that.

And then on the other hand, you have a kind of religion, a conventional religion, whether it's a Judaism, whether it's a spinoff of Judaism, as we understand today as Catholicism, that these fallen angels were the ones that were contriving or masterminding the development of this religion called Roman Catholicism from very early on. And we see that up until today. And many authors have spoken about that. So, I mean, this is where we get into the idea that the fallen angels or their followers, their minions they were the ones that may have played a role in putting together some of these foundational texts like the Book of Revelations that are used as a template for controlling Christians ever since.

TIMOTHY: Yes, I would say this isn't the only thing we have that's being fulfilled right now in terms of prophecy. So I'll give just a brief outline. Biblically, the Millennial Kingdom Christ thousand-year reign is the seventh one-thousand-year period of history since Adam and Eve, since they were created in the Garden of Eden. We can add up the years in Scripture until now, and we know factually that we're nearing the year 6000 now. That implies that the Antichrist should be alive in the world today.

But some other things that are supposed to happen simultaneously with all this is half of Jerusalem is going to be taken captive and war by force from Israel after the entire city is encircled by the nations of the world, Israel's adversaries, but all the world will be involved in this encircling against Israel against Jerusalem in Israel. In history, Jerusalem was sacked multiple times, but they always took the whole city. They never stopped with half the city. Since 1967, the world has been demanding that Israel give up half the city meaning the old city of Jerusalem that has the city of David in it where the Temple Mount is, not the modern edition that they might call west or western Jerusalem. So the world's been telling Israel give up half the city of Jerusalem. Israel has refused to do that.

And right now, as we look in the world, we can see that things are getting set up to where the world is going to try to take it by force. They're trying to impose it on Israel, but they're not going to get anywhere doing that. And so the prophecy is that they'll take half the city by force. And we've seen since 1967, since Israel regained control over the whole city when it got eastern Jerusalem back under its control for the first time in about 1900 years. We are seeing 1800 years, I guess, but we're seeing that the world is lining up to do what Scripture says is going to happen under the Antichrist. And it's going to be a Prince of Roman lineage leading this charge, so to speak.

So one of the things that I document in this book is that Charles personally has been over the whole fall speech process all this time since 1987, at least, including what we see now and this stuff with Saudi Arabia on MBS called the Saudi Peace Initiative, which has been around since the early 2000s, is really a sideshow.

And it's been they've tried to incorporate it under the quartet and this effort under Charles since then, but it always comes back around to the quartet under Charles. So everyone has always reported to Charles in this whole thing. And he's been behind it. So that's documented in this book and in the first edition of the book up through 1998 when that one was published.

So there are those things, but there are so many other things happening in the world. So for example, this year in September, we got UN 2.0. And I'll just explain very briefly. One of the things that they

want to do is expand the United Nations Security Council beyond its current five permanent members. And they've agreed now to do that with UN 2.0, the whole world has agreed to do that. They're just trying to do the final negotiations on what that's going to look like right now. But a lot of people don't realize that the United Nations itself has been under the British crown the entire time it has existed. So the United Nations came out of the League of Nations, which itself came out of the Royal Institute of International Affairs, otherwise known as Chatham House in London. Chatham House or the RIA has been headed by Charles since 1969. Since he became Prince of Wales or Prince of the Red Dragon.

By the way, that red dragon was adopted as the National Symbol of Wales in 1953. So he was made Prince of Satan or Prince of the Red Dragon in his particular investiture in July 1969 when he was facing that dragon when the Queen was put, Queen put the coronet on his head.

But that being said, he has been over the RIA this whole time. So out of World War I came the League of Nations, right? But under the RIA, out of World War II came the United Nations. But then World War III precedes the great the biblical Great Tribulation or the final three and a half years before Armageddon.

So before we ever get to the Great Tribulation and Charles being possessed by the Devil in writing as the fourth horseman before that, World War III transpires and out of World War III will come the actual UN 2.0, so to speak, or that final form of global governance. Now, the last thing I'll say on that outline is that the purpose of Chatham House, out of which all this came that's been under the British Monarchy, from its beginning when it was created, the whole purpose of it was to create a global government that would be subject to the Crown of England to the British Monarchy.

DR. SALLA: Well, that is a very, we had no idea that Prince Charles in 1969 became the, well, I guess the nominal head or the formal head of the Royal Institute of International Affairs. And because that actually has a kind of senior role in steering international affairs around the world and people in the United States are very aware of the Council on Foreign Relations and assume that that's all run by the Rockefeller family out of what is it, 666 5th Avenue or whatever the address is. But in fact, the Royal Institute of International Affairs, I mean, that was being run by Prince Charles since 69.

And so that's been, that organization has been playing this very important behind the scenes role in shaping international affairs. So yes, that's a kind of profound kind of like statement right there.

TIMOTHY: Well, to give two examples of practical ways that that works out through the UN with Charles specifically, he wanted to see a global

security lecture series from the United Nations. He told the UN he wanted that. So he went and wrote the first lecture and personally delivered it at the United Nations.

And now the UN has an annual global security lecture. Charles started that whole thing. Another example is he stated he wanted to see a UN standing army, something more empowered than something like the peacekeepers of the UN with himself as the commander of that military. This is documented, he stated this.

He is really over the UN Secretary General and the world doesn't realize it, but the elitists know it. Another example 1969, the World Economic Forum was founded in 1970 or 1971 by Klaus Schwab depending on the sorcery clash. It's one of Charles Knights. And everyone in the world today has heard of the Great Reset under the WEF. I mean, there's almost nobody who hasn't heard about it.

People think it's Klaus Schwab 's agenda because he wrote a book called *The Great Reset* with a COVID-19 subtitle, right? Or maybe it was the other way around, but he wrote a book called *The Great Reset*. Well, Charles personally announced the Great Reset to the world from the WEF months before anybody ever heard of Klaus Schwab 's book, *The Great Reset*.

It was Charles. It's his agenda. The sustainable development goals of the United Nations in addition to the public-private partnerships in addition to the climate agenda of the United Nations, the whole thing has been under Charles the entire time. So for example, that statue, they were hailing him as the environmental savior of the world when they gave him that statue.

And it's actually got the inscription, Savior of the World on its base. And he was credited personally by global leadership for the success of the Rio Earth Summit in the early 1990s. And out of that summit came the Kyoto Protocol and all of the climate conference on the party, conference of the party's meetings at the United Nations since then. And Charles has personally opened and delivered the initial speeches at some of those COP meetings. But everyone who's led those meetings, they've done it under him. So Charles has been, while he was at Prince of Wales, he was orchestrating these different international events concerning the environment, concerning international affairs.

And people were lauding those achievements whatever it was the Rio Summit or the World Economic Forum, and lauding the achievements of those initiatives and heralding him as the Savior of the world.

DR. SALLA: I mean, that's a kind of a shock that that to me is like there's been a plan to have him increasingly depicted or accepted by more and more people around the world as the world's savior because he has been secretly manipulating these global events.

TIMOTHY: Yes, and in fact, his mother called him “The Chosen One”, at birth. That is also documented in the book. His parents were both associated as were his grandparents with Gorsed Druidry in Wales. And Gorsed Druidry, they became Druids in a forest in Wales. Gorsed Druidry's central symbol is this same dragon of Wales that's on Charles' heraldic achievement. And his mother before Charles was invested his Prince of Wales, I think it was actually in 1953. I think it was the same year that Wales adopted the Red Dragon as her national symbol, but she had her own event of Karen Arvon Castle, the same castle, where Charles would later be invested in 1969 as Prince of Wales or Prince of the Red Dragon. And the central symbol at her event was the Red Dragon, just like at Charles later, investiture as Prince of Wales. And all that is to say that Gorsed Druidry is overtly serving Satan. That's what they're doing.

DR. SALLA: I have come across again and again this information in my research that Freemasons are behind the global cover-up of these advanced technologies. Now either being found from extraterrestrial crashes or being retrieved from these ancient civilizations found all over the planet that Freemasons are in charge of that.

Now, I know Prince Charles' father, Philip, was a senior Freemason, and people have been skeptical as people don't know about Charles' role in the Freemasons. So what do you know about that? And also do you know anything about Freemasons at the 33-degree level that they go through a test where the Bible is brought in? And depending on whether you desecrate the Bible, you then progress onto higher orders or you stay at that 33-degree level?

TIMOTHY: Yes, I'll say a few things and I'll come back to this erotic achievement for just a moment as part of that. You see this belt that's around the royal shield at the center of the heroic achievement? This is called the Garter or the Order of the Garter. That order is the oldest continually existing order of shivarier knighthood in the world, mounted in 1348. By Edward the Black Prince, who was the Prince of Wales of the day, and he's the one who originally had this badge of the Black Prince, and he also had this shield of the Black Prince.

These are 15 crusader coins, or gold beasons, here at the center. I want to make sure people can see this, I'm circling. So this is the Black Prince's badge, the Black Prince's shield. That Black Prince was the founding Prince of Wales of the order of the Garter along with the British Monarch at that time in the 14th century. This is in the form of a serpent swallowing its tail, but this Garter being the central symbol of the order of the Garter, it's the primary control point for the New World Order and the creation of the global government, in fact, along with certain other orders of chivalry under the British Monarchy. But this is the most important one. It has 24 companion knights, and the two

highest ranking knights by birth within the order are the British Monarch of the day and the Prince of Wales of the day. So currently that would be Charles and William. Previously it was Queen Elizabeth II and Charles.

The reason I bring that all up is one of the knights in that order underneath them is the head of the United Grand Lodge of England, Freemasonic Lodge, the Duke of Kent, is one of the knights in the order of the Garter under the British Monarch and the Prince of Wales of the day, always. It's in the United Grand Lodge of England that the first three degrees of both the York Rite and the Scottish Rite originated because those degrees are in common, the first three degrees of both those rites of Freemasonry and they originated in that particular lodge, which is now known as the United Grand Lodge of England.

Whoever is the Grand Master of that lodge is viewed as the highest ranking Mason in the world, no matter their degrees. He's the highest ranking Freemasonry in the world because this is where the common degrees for all Freemasonry originated out of that lodge. And he is one of the knights in the order of the Garter under the British Monarch and Prince of Wales of the day.

So that is to say that Charles, whether or not he is a Freemason, then he's always said he is not, he is over Freemasonry globally. But in the order of the Garter, not only are you over Freemasonry globally, it also is the central control point for the modern Illuminati. For the Knights Templar, the temple Knights, and they are the bodyguards of the British Monarchy to this day. For the Prairie D'Azion, for the Rosicrucians, and for organized Satanism and witchcraft globally. And to give an example on witchcraft, this Garter, if you were to look at the actual belt that the Knights wear on their person when they have their meetings each year, it's lined with two rows of 169 gold buckles that are horseshoe shaped on each edge. And it's 13 times 13 twice. Each of those gold buckles represents a witch king or a witch queen i.e., represents the head of a covenant is what I'm trying to say. A witch queen or a witch king is when they have 13 covens under them. But each one is a high priestess or a high priest each gold buckle. And when there's 13, you're a witch king or a witch queen. And when there's 13 times 13, you're a witch queen of witch queens or witch king of witch kings.

All that is to say it's symbolizing also that the British Monarch and the Prince of Wales of the day are over Wicca or witchcraft globally. So there's a whole lot of crazy stuff tied into just the order of the Garter. And it's at the center of this erotic achievement. Now, Prince Philip, and this is to the exopolitics side was very interested in antigravity craft UFOs, nalgings. I'm sure you know this. He had a wall dedicated to it in

his home.

And he always got briefings on it that were of the highly classified stuff that no one else could hear. Because again, the government in the UK reports to the British Monarch and the Monarchy. Charles is over the government in the UK. He's not powerless like so many people think. He appoints the prime minister. He has to approve the prime minister entering office or the prime minister doesn't get to enter office, for example, in the UK after their election. He has to approve it.

So here's something from his investiture in July 1969 that oddly relates to this and is highly interesting. The investiture took place on a round gray Welsh slate platform that had three thrones in the center of it. And it's comprised of three concentric circles of gray Welsh slate that are sliced kind of like a pie that you can see from above.

And then those thrones are in the very center of it. But from above, it actually looks like a round disc, a lot like a flying saucer. And that was intentional imagery. Now Charles said that it was his father. That's what he said in his biographies, he put the crown on his head to crown him Prince of Wales or Prince of the Red Dragon in July 1969. But it was his mother who did it. And the whole world could see that in film footage and in photographs.

But Charles said it was his father who did it. What you're seeing here is not, I don't believe an artificial scratch on a frame of film footage. This X was captured on multiple frames on one camera in live video footage of the event when the Queen was doing these things, putting these things on Charles. She had just put the Ermine mantle on him after putting the crown on him here in this photo.

And so if you watch the live film footage, you get this really rapid flash of this X right across here. And it's going through Prince Philip's head through the microphone array that Charles is going to speak from afterwards. And then from the backrest of the Queen's throne, which actually has the Dragon of Wales engraved on it, and through the Queen's shoulder and into Charles head.

I suspect that this is actually capturing on film, a supernatural event where the double possessed the Queen as she put this crown and these other things on Charles head, so that when he said it was his father who did it, he was actually referring to the double.

That's where I think this was. So that's a very strange thing, but it ties into this notion of UFOs and his father Prince Philip, his biological father, is very interested in that topic and ostensibly met with a humanoid alien who got off a craft disembarked from one to meet with him to talk with him at one time. These are alleged soft disclosures. I'm sure you know all this. And so it all ties in.

DR. SALLA: When we consider that Prince Charles since 1969 as the

Prince of Wales, that he had this enormous authority within the occult hierarchy of our planet. And that position gave him authority over other organizations like the Freemasons, which we know from people such as, I don't know if you're familiar with this book series from Romania called the Transylvania Sunrise Series, Radu Cinamar describes the role of the Freemasons in essentially dictating how this ancient hall of records that was found under the Bucegi Mountains of Romania would be controlled and revealed to the world.

And he described the role of the Freemasons that they came in. And they just kind of like took control of everything. So what you're saying is that that ultimately it's Prince Charles, or was Prince Charles, are now King Charles that has this ultimate authority over the running of these top secret projects involving extraterrestrial life, ancient technologies in terms of the control of them, and when and how to reveal these to the world, if at all.

TIMOTHY: Yes, in fact, scripture refers to Satan as the Prince of the Power of the Air. And as to as the Prince of this world in terms of Adam and Eve by sinning in the Garden of Eden, Eden having seated as it were their authority over this planet that God gave them originally to the Devil and his minions.

And Charles is biologically in a manner of speaking the Prince of this world because he descends from Muhammad for he alleges from ancient Israel's King David. So for example, when he was crowned last year, he was officially crowned King of Israel.

Most people don't know that it's an official claim of the British Monarchy. But he also officially claims to descend from Muhammad and converted Islam behind the scenes. So he's a shoo-in for their mighty that's documented in the book.

But he's also descended from the ancient Assyrian and Babylonian emperors from the Roman or kings from the Roman emperors from the ancient Egyptian pharaohs from the ancient Greek rulers from anybody who was prominent, royally speaking or politically speaking in history, almost ever anywhere.

He descends from them and or claims to descend and is taken seriously. So he's literally biologically speaking the Prince of this world. And so what we're looking at is him bending the knee here to the Devil, basically the red dragon in the New Testament when Christ was tempted in the wilderness for 40 days and 40 nights by the Devil and the Devil tried to get Christ who is God incarnate to submit to him. So he could have permanent authority over the earth and over creation and proceed to try to usurp God's throne as creator of the universe. God is the creator, Satan is just a created angel who went and became basically a powerful angel. But that being said, he told Christ if you will bend the knee to me if you'll bow the knee to me, I will give you all the

world and its kingdoms and the glory thereof.

Christ rejected that. He refused. But here what we're actually looking at and what was actually filmed in July 1969 was Charles in fact bending the knee to the Devil and saying, yes, I'm your guy, accepting that charge in other words, to become Prince of this world. And when we talk about being over these elitist efforts and so forth and being aware of the classified projects and all of this, yes, Charles is at the top of the whole deal.

And when the "aliens" want to negotiate with somebody or talk with global leadership or something like that, if that kind of scenario comes to pass, I have no doubt they'll start with Charles.

DR. SALLA: Well, there was an incident that happened in October of 2022. And this involved this army inside of that that I continue to work with called JP. And he says that he was, he went on a covert mission to this underground civilization in Florida, where there was this tree, this magnificent tree. And it was drawing water and shedding water from its branches and leaves that had this rejuvenating quality. And so there's kind of an analogy there with the tree of life in ancient scripture, and that there was also a sleeping giant there in a stasis chamber.

And he and the team he was with were given seeds that those seeds from this tree of life and these rejuvenating plants in that area were supposed to be kind of like used in the United States for helping like help the health of humanity and Americans develop cures to many diseases and so forth.

But what he describes is that as soon as he and the team emerged out of that cavern, that these seeds that had this really important quality to them were taken immediately out of the United States and taken to England. And they were taken to King Charles. And that was in October 22. That was shortly after his mother's death.

TIMOTHY: Fascinating. Yes, I, that's very interesting, he had a tree on a partition at his crowning last year. And in my book, in this second edition of the Antichristian Company book, I document that that is related to a couple of things. It's a counterfeit tree of life, but it also relates to when the kingdom of Babylonia, under Nebuchadnezzar in the Old Testament was portrayed as this, this huge tree in which the nations of the world kind of would nest in its branches, so to speak. And on this tree that Charles had, he had the names of the Commonwealth nations written in the leaves of the tree. So it was like a counterfeit of that tree and also a counterfeit of the tree of life at the same time. In terms of the actual tree of life, biblically, the prophecies indicate that in the Millennial Kingdom after Christ returned, when the world has been so damaged and life is about to perish globally, that the tree of life, the original one from the Garden of Eden, presumably

will be re-exposed in a manner of speaking to mankind. And waters will come forth from it, living water so that even the dead sea in Israel will end up being teeming with fish and life. And those waters, it says, will be for the healing of the nations along with the leaves of the tree. They'll be medicinal in some fashion and produce rapid healing for the world along with the things that he'll do supernaturally. But the tree of life is coming back in that sense. And then a thousand years later, after his Millennial Kingdom, when he creates new heavens and the new earth within the new Jerusalem will be the tree of life as well inside the city.

DR. SALLA: So that's amazing. I mean, that's really corroborates what JP said. And I mean, the kind of waters coming from that tree in that underground civilization in Florida did have those healing qualities. There's another source as well that had something to say about King Charles that kind of like really does support what you have written about. And this is Dick Allgire. I mean, he is a remote viewer, very well-known remote viewer. And his group now is called Future Forecasting Group. And they did a remote viewing of King Charles Coronation. And they said, and they remote viewed as a second ceremony, a second ceremony that was completely apart from the public ceremony that was captured on TV and televised around the world. And he said that in this second ceremony, that it involved blood sacrifice and it involved the true transfer of power to King Charles. So do you know anything about a kind of like the real occult ceremony that goes along with the crowning of King?

TIMOTHY: His crowning was already unique historically last year. It had the participation, for example, of religions that are obviously not Christian, that don't claim to be Christian. It also had Roman Catholic participation, which was heresy prior to that, for British Monarchs ever since Henry VIII, when there was this schism from Roman Catholicism that produced Anglican Protestantism, that church.

So he had the participation of people who Christians would call pagans or Satanists or occultists or whatever. At his crowning, his mother didn't have that, not that way. Hers seemed much more Christian than his coronation last year. So he brought in things that were in anathema historically until last year and wanted prior to that to be a defender of faith's plural rather than the faith Christianity.

That's his statement. And he manifests that at his coronation, and even the Archbishop of Canterbury, who is biblically speaking a heretic, all the Archbishop's in Canterbury have been going back decades and decades and literally, I think just this week resigned because of some scandal that he was caught in. The current Archbishop of Canterbury just resigned.

But this Archbishop called the world to pledge allegiance to Charles at

his crowning last year. So whether they're, oh, and I will mention one other thing, he was anointed with oil that was produced from Olives growing in the Mount of Olives in Jerusalem. That's what he was anointed with and he was also crowned king of Israel.

So it's my view that the Devil was involved in his crowning and his anointing and that call for the world of pledge allegiance to him last year in May, his coronation, the one that the world saw. Now, if there was an occult coronation apart from that that involved blood sacrifice or something overtly satanic, this is actually the first time hearing of it. But I wouldn't doubt the possibility of that kind of thing transpiring.

DR. SALLA: There's another source. And again, this was like, for me, confirmation that really it was King Charles, who was the Antichrist, as you were saying years ago. And I remember when you first told me that, I mean, eight years ago, or whatever we met for the first time or began communicating, I was very skeptical. I just didn't believe it. I thought, okay, no, I go along with some of the other predictions. But over the years, I've come around to see that you were right all along. So here is a contactee that I've done a few interviews with that's kind of well known, George Kavassilas. And he is an Australian. And he's been working with different extraterrestrial organizations and groups. And so he's got a lot of very interesting information.

But what he said really kind of shocked me when he told me a month or two ago, he said that he was told, well, he "saw a very dark demonic spirit taking over the body of King Charles". And that was like, wow, the **demonic spirit possession**. And he said that this was a really filthy dark entity from somewhere in the galaxy that just came in. And he said, because of that demonic possession, that gave authority to the kind of more positive extraterrestrials to come in and intervene to mitigate what was happening on earth. So I don't know if you want to comment on any of that.

TIMOTHY: Yes, I will. Obviously, from a biblical perspective, one of the things that transpires at Jesus's Yeshua's return years from now. And I think we've got maybe eight years, give or take a bit of time, that's my guesstimate right now, to the end of Armageddon, basically about eight years from now, roughly, very roughly.

But one of the things that happens at his return is that the nations make war against him under the Antichrist and under the Devil and under the other fallen angels. Mankind somehow is deceived enough to actually make war against the creator of the universe and his Messiah, who is the creator incarnate fully God, fully man.

In other words, the *creator incarnate*. Somehow mankind gets to that point. And my speculation on that going back decades and decades has been that somehow mankind will be convinced that aliens are real, that they actually come from someplace off earth, evolved

independently of earth and life on earth, that kind of thing.

That Mac revolution is real, most of mankind believes that today rather than create thousands of years ago. And that the earth is under threat from bad aliens, the bad cop side, and that there are these other good aliens, the good cop side who have been working with governments behind the scenes with corporations behind the scenes, some of the military-industrial complex, in other words, to give us technology to bring us up to speed in a manner of speaking, to be able to make war against the "bad aliens", if they happen to show up to defend the earth and defend mankind and so forth.

So I think we're looking at a good cop, bad cop scenario, ultimately, where governments in the world have been interacting with these beings, not really sure most of the time what to make of them. Are they really the good aliens like they claim to be and here to help us ultimately and help us defend ourselves in case bad ones show up? Or are they actually the bad ones and just deciding, well, we don't know, but whatever they are, it can't hurt us to have more technology or disposal if we need it kind of thing in case they're right or in case they turn out to be the bad guys, we might be in a better position to deal with them, right?

So I think the governments have been a bit ambivalent about what they're dealing with. Others think that they are the good guys, others think that no, they're probably the bad guys and they're playing along. But it's a whole big scenario, a bunch of scenarios, actually, and I deal with it in a coming book series, a multi-volume series, let me just point that out for a moment for those who want to see it later. I hope this will be published within the next year or two, hopefully next year, it's getting close, but it's called *Solar Apocalypse*, this multi-volume series. The volumes are going to be reworked a little bit because some of them are quite large, but there's a massive amount of evidence in these volumes for non-terrestrial life, and I'm positing what I think is the biblical explanation for their existence and what, and I'm showing actually, what actually exists out there in our solar system provably that has been photographed and that NASA and other space agency, so it isn't only NASA are not talking about.

So in that, I deal with those agendas and your question, but it's my take that probably mankind is going to think that Christ and his angels at his return is an evil, dangerous, malevolent, alien invasion and that they have to line up under Charles as the Antichrist, and under the Devil as the "good guys", to defend mankind and the earth when in reality, they're going to be making war against the king of kings and war lords who's coming to judgment kind and put an end to all the spiritual deception and all the evil and all the wars and so forth and turn the whole world to a knowledge of who the real god is and where

the world finally will have peace and then to supernaturally heal all the survivors who know the truth finally and heal the world supernaturally to make it like the Garden of Eden after it's so damaged and destroyed from Armageddon and the events preceding it that life is about to die completely on the planet.

DR. SALLA: So yes, I think we're looking at a scenario of what the world will perceive as an alien invasion, but it's not really that.

Well people might still be skeptical about the whole idea that King Charles or Prince Charles before he became king, is playing this kind of like critical role in being an Antichrist or trying to foment this kind of like end of days or world kind of devolution into violence and wars. But there are examples, I mean, for example, one of the key examples I think is the Ukraine war, where in you have in February of 2022, Russia launched its special military operation and then a month later, the Russians and the Ukrainians got together in Turkey and they came out with an agreement to stop the war.

What happened afterwards was that the prime minister of England, Boris Johnson, flew over to Ukraine to Kiev and basically told Zelensky not to sign the agreement. I mean, that to me is like, so right there you have someone in Britain pulling the strings for this prolonged war in Ukraine that would potentially suck the whole planet into a world war, into a nuclear war. And that was Britain, it was whoever it was that gave the order to the prime minister, Johnson, to fly over to Kiev and it makes sense that it was at the time Prince Charles, who was as you say, the Prince of Wales, the Antichrist.

TIMOTHY: Well, a lot of people aren't super familiar with history in the United States, particularly history outside the country, but the royal family of Russia was killed in the communist revolution there. But they were related to the British Monarchy and the British Monarchy had an opportunity to get them out of Russia. It was offered to them to take their relatives wouldn't be killed in the communist revolution.

The communist gave them that opportunity and they chose to let them die instead and at the same time, I've always hated the Russians because of it. The British Monarchy has because their "family in Russia" was killed even though, even though really it was it was also partially the Monarchy's responsibility there in the United Kingdom. So for them to have an opportunity to dismember Russia, well, they're all for that. And if it brings about World War III, Charles is all for that because at the end of the day, his name is *Death*, one of whom he possessed by the Devil.

And even though he's the fourth horseman of the apocalypse, the foretold Antichrist of scripture, he's present throughout the seven years leading up to Armageddon itself. He's manipulating things behind the scenes the entire time.

And so yes, Russia wanted to come to some reasonable agreement where they could protect the people they view as Russian speakers or nominally Russia, Russian there in Ukraine, who they thought were being persecuted by the Ukrainians.

They wanted to go in at that point and say, okay, we're going to take this territory, we're going to protect these people from further attacks by Ukrainians and by the Ukrainian government. And we'll stop right here. It was really their attitude if the West would just leave them alone.

And the West said, "No", and repeatedly when they almost had an agreement that was signed actually early after the invasion from Russia into Ukraine. And it was in fact the UK that nixed it under Charles.

DR. SALLA: Exactly. And then you have this other war that broke out in Palestine and Israel. And it seems that the Israeli government is kind of hell bent on just escalating that and turning it into a wider regional war. So is Britain and Charles behind that as well?

TIMOTHY: He's behind it in the sense that he wants East Jerusalem to put himself there. So that statue that idol that I showed of Charles. Second Thessalonians chapter two talks about when it's emplaced on the Temple Mount. And one of the curious statements there in second Thessalonians chapter two is that this son of perdition, the antiChrist will be looking at himself showing himself that he is God, when he's sitting on the Temple Mount where he's not supposed to be.

These are the first few verses of second Thessalonians chapter two. While the statue has Charles face. So when that statue is on the Temple Mount, the full sized version and Charles is simultaneously possessed by the Devil. And now he's in Jerusalem looking at that idle on the Temple Mount with his face. It's like looking at himself at that point, showing himself that he is God and the Devil at the same thing because he's in Charles at that time when he's possessing him. So the British Monarchy through the Balfour Declaration earlier in history approved the Balfour Declaration, which allowed the modern nation state of Israel to come into existence later after World War II, right? It was May 14, 1948, that Israel officially became a nation state again in the Middle East. And then Charles was born six months later, November 14, 1948, and called it The Chosen One by his mother. Somewhat interesting timing, but the British Monarchy animated things to allow Israel to come back into the land.

Now, biblically, Zechariah 12 to 14 in the Old Testament, two thirds of Israel in Judea, which is where most of the modern nation state of Israel's Israelite population resides. So there's some in the so-called West Bank, which is Samaria Galilee, about half a million. And the rest are in Judea. Those who are Israelites apart from the quote unquote

Palestinians and Muslims that are there in the land of Israel also. But most in Judea, two thirds who are in Judea are going to die. According to Zechariah 12 to 14 in those final three and a half years leading to Armageddon and Christ returned by the time all those things are finished, two thirds will die. And the remaining third will come to faith and be saved, become Christian.

In other words, they'll live. That's just those who are in Judea, that I'm speaking of, only those who are in that territory geographically. So the British Monarch, being animated by the Devil, has worked to get Israel back into the land so that this rule from Jerusalem could be set up under the Antichrist and under the Devil. Simultaneously, the Lord has allowed it because prophecy at the end of the day has to be fulfilled. And it's at the end of the day, it's going to be Jesus, Yeshua, the real God, the rho-masaiya, the real Christ, who will be ruling from Jerusalem after he defeats the Devil in his minions at Armageddon. But just to point something out about this statue, the very first prophecy in the whole Bible about a coming Savior or Messiah is Genesis chapter 3 verse 15. It's called the Proto-Avenjellium, and we'll just look at the verse very quickly, and then I'll tell you why it pertains to that statue we were just looking at.

So this is right after the fall in the Garden of Eden. And God is speaking to Satan, to Lucifer, to Adam and to Eve. And he's saying to the Devil, I'll put conflict between you and the woman, the woman in this case is Eve. And that conflict that animates part of me is like warfare or conflict besides just the normal you're my enemy kind of thing. And between your offspring and hers, so the woman is going to have her own offspring here.

And this is not a great translation, it should be just seed rather than offspring. But between your seed and hers, a woman doesn't have her own seed, the man does. So what it's really indicating is a virgin birth here. But then it says that he will crush your heads. In other words, the woman's seed, the promised seed that comes from her is going to crush the Devil's head.

And simultaneously, the Devil is going to strike his heel. Now that word for heel is actually protuberant. That's the more literal meaning from the Hebrew, anything that sticks out from the body. So in other words, it could be the hands, the feet, the forehead, all those areas in fact where Christ was crucified, where he was pierced, I should say, while he was crucified on the cross.

But this serpent is the red dragon to whom the Lord is speaking right here. And he has his own seed. That's the antiChrist. And the woman has her own seed. That's Messiah. And then there's the collective seed, the Christians in Messiah. And then the collective seed for the Devil, the non-believers in the Devil in a manner of speaking in the

antiChrist at the end of days.

The reason I put all this out is that the statue here to Charles is a complete inversion of that. So it shows Charles himself coming, crushing the heads rather than the Messiah, the real Messiah coming to crush the heads. And it's mankind looking up to him according to those who created the statue calling Charles, Savior of the world. But so you can look at it that way or you could look at it as Charles crushing the heads of those who won't submit to him hovering over them as this angelic figure basically is a Devil wearing his face.

And dressed only in a loincloth. So this statue is very significant from the perspective of saying effectively, no, it's Charles who's going to fulfill that role rather than the Messiah who's going to fulfill that role. And likewise, his mother, when she said he's The Chosen One, that was her trying to fulfill the role of the woman giving birth to the seed that's going to crush the heads. So that's a complete inversion of biblical truth and of reality.

DR. SALLA: Well, I kind of want to bring this to a close because we do have to come back and do another one to go deeper into this information. But I want to kind of finish off by talking about Donald Trump and the assassination attempt on him. And he has said that he believes that he was saved by God for a reason.

And everyone knows about the kind of miraculous last moment turn of their head that saved his life. So it seems that he has a reason that is divinely sanctioned to have survived that assassination. He's just won the presidency.

And it's quite clear that he has the kind of the complete opposite agenda to Britain and King Charles when it comes to Ukraine and otherwise. So I mean, with Trump, I mean, is he associated with this kind of divine force that is associated with this return of the Christ energies as you've been describing and that he's administration that's coming in now is going to be front and center, kind of like combatant fighting it. People know that the deep state tried to remove him. But is it really that he is now fighting against the forces of this antiChrist?

TIMOTHY: Well, he's definitely not lined up with most of their agendas. He has been pushing the Abrahamic cords and says he wants to revive those which he had in his prior administration, which I view as a false peace process because, biblically, Israel is not going to agree to divide Jerusalem, for example, and that's a primary demand of the world for Israel to have "peace from her adversaries."

Israel won't agree to it. So it'll ultimately be taken by force. Trump is on the side of I want peace, I don't want warfare, which is a good desire. But it isn't what prophecy says is going to happen. So he's definitely not lined up with the Devil's agendas in most cases.

That said, I'm not convinced that he's an actual biblical Christian either.

I do think that he favors Christianity. I'll say that. And in terms of where things are headed, if the Biden regime were to remain in power, let's say Kamala Harris becomes president because Biden decides to give up his version of the throne and make her president before January 20th last year or next year, I mean to say.

And let's say that something happens to Trump, whether he's jailed or assassinated again, or the Democrats refuse to certify the electoral votes, that they do the thing that they were accusing Republicans of threatening to do four years ago. If any of those things happen, and Trump doesn't end up in office for some reason, then the Biden agenda will plow forward. And that is an agenda definitely against Israel and toward division of the land by force ultimately, where at some point, Israel would be betrayed and the United States, or whatever president we have, would line up under that agenda through the U.S. etc. to bring this against Israel.

Let's say Trump gets into office. Well, he might change his mind because he is so set on wanting peace in the world to know more wars, he's already told Netanyahu in Israel this month, you have until my inauguration to wrap up the wars with Hamas and Hezbollah. I want him done by the time I enter office if possible.

But you have a free hand is basically what he's told Netanyahu, do what you have to do Israel to wrap that up. Basically, he's what he's saying. Of course, Israel is still constrained by the Biden heritage regime, until then, so if Trump gets into office, he might just change his mind in terms of Israel specifically and come against Israel because he so much wants peace and he's not lined up with God's agenda in that area.

Or maybe he won't actually get sworn in January 21st because they're still trying these machinations against him, these manipulations behind the scenes to prevent that outcome. Even though Biden and Harris came on publicly and said he won. We want a peaceful transition of power and so forth.

But can we really trust that that's not some other game that they're playing? I don't think we can trust that. So, so whatever happens, either Trump will be a savior figure to the United States per zone desires, but prophecy will still be fulfilled despite that. Or he won't actually end up in office.

DR. SALLA: Well, fascinating analysis of contemporary events and of course, biblical events and King Charles and scripture and the antiChrist. It's been very informative. I want to thank you, Tim, for being exopolitics today. And I do look forward to having you back. And we continuing our discussion because there's so many more issues to take up, especially as this new Trump administration comes in. So, thank you for the interview. And I look forward to talking to you again.

TIMOTHY: I look forward to that too. Thank you. And let's talk about Mars also in our next interview.

DR. SALLA: We'll do that. And Tim, where do people go if they want to learn more about you buy your books.

TIMOTHY: Yes, thank you. So, prophecyhouse.com is my publisher prophecy house. You can see it up here. And just prophecyhouse.com, no spaces. That's where they can get my materials. And then on YouTube, for example, or Facebook, I'm just author Tim Cohen, A-U-T-H-O-R-T-I-M-C-O-H-E-N. And they can see more discussions and things like that also in those areas. Well, thank you, Tim. Thank you so much.
